City Surveillance and Traffic Management Meet——Post Show Report

With the rise of city infrastructure and security measures, Infinova has taken this opportunity to reach out to the City Police Officials, Government and several dignitaries from varied sectors.

On 24th July 2015, Infinova had organized an event focused on CITY SURVEILLANCE AND TRAFFIC MANAGEMENT MEET at Bangalore. The event was organized with an objective to reach out to the stakeholders of the City Infrastructure development and understand their pain areas, suggestions and growth strategy and also educate the visitors with the Infinova solution portfolio which is capable to tackle surveillance needs for any city.

The turnout of the visitors attending this event was extremely impressive. The event was initiated by lighting of lamp followed with an extempore by one of the Bangalore Police Official. The gathering was then addressed by Mr. Milind Borkar- Vice President of Sales for Infinova- India, Middle East and Africa. He focused on introducing Infinova and delivering a short brief on Infinova and its successes.

The event then moved further with Mr. B V Anand from Nandi Infrastructure Corridor Enterprises, discussing about the existing and future planning of the city infrastructure and his experience in the field of township planning was quite commendable. Post his speech, a panel discussion was organized which discussed on challenges in City Surveillance environment and the key topics of the discussion were:

Integration Between the Technology Systems

Video Analytics- Its Importance and Impact

Face Recognition Systems

ANPR System

Video Surveillance Trends

The panelists were:

Mr. Bipin Pradeep Kumar- Co-Founder | GAIA Smart Cities

Mr. S R Garwad, Joint Director | Directorate of Municipal Administration

Mr. Mohammed Khalandar Khan, Principal Consultant (Traffic & Transport) & Adjunct Faculty | Symbiosis Institute of Technology, Pune

Mr. B.V.Anand , Advisor Town Planning| Nandi Infrastructure Corridor Enterprises

Mr. Milind Borkar- Vice President Sales- Infinova, March Networks, Swann- India, Middle East and SAARC

The Panel discussion was moderated and summarized later by Mr. Bipin Pradeep Kumar who provided the overview on the possible solution to overcome the challenges discussed during the panel discussion.

The event closed with speech by Mr. Sumeet Chanana who is the Regional Sales Manager for North India at Infinova. He focused on the Infinova Product Portfolio and Infinova Solution offering to overcome most of the challenges which were discussed during the panel discussion.

Overall, the CITY SURVEILLANCE AND TRAFFIC MANAGEMENT MEET at Bangalore was one of the successful road shows organized by Infinova and did open way for lot of potential opportunities
