VT231-B2 SERIES

HD 2MP SMART STARLIGHT WDR IR IP PTZ DOME CAMERA

FEATURES

- Built-in 30X HD integrated camera module
- 1/2" Progressive scanning CMOS sensor
- ICR infrared filter type automatic switch to realize true day/night surveillance
- Starlight-level ultra-low illumination
- Supports multi-frame composite pattern wide dynamic and the maximum dynamic range is 120dB
- Inbuilt efficient infrared lamps, wave length 850nm, to ensure stable long-term use and reduce maintenance cost
- Night vision distance up to 200 meters
- The ways of turning on the infrared lamps can be flexible to meet diversified surveillance environment demands
- The infrared power is automatically adjusted based on dome drive zooming or manually to optimize lighting effects in the night
- HD network video output: 1920×1080@60fps
- Features smart functions to achieve border protection (wire cross, intrusion)
- Supports intelligent tracking
- H.265+M-JPEG or H.264+M-JPEG video encoding, three streams
- Supports dual SD card
- Supports alarm recording and alarm snapshots

- Bi-directional audio, G.711-A/G.711-U/G.726/AAC standard optional
- Two alarm inputs and one alarm output
- Supports motion detection, 4 detecting areas dividable
- Supports Region of Interest (ROI), 8 regions dividable
- Allows multiple users to perform live access and parameters settings via Web Server
- Supports preset, autopan, pattern, autoscan, time tour, normal tour, power-on return, etc.
- Supports ONVIF Profile S/G & T standard
- Supports RS485 control and analog video output for easy debugging
- IP67 protection rate, inbuilt a heater and air circulation system to avoid icing
- IK10
- With Window wiper
- Supports water-proof breather valve
- Supports remote network upgrade

DESCRIPTION

VT231-B2 series HD IR IP dome camera provides high quality video with the resolution up to 1920x1080@60fps, adopts H.265/H.264/M-JPEG compression formats, and boasts of excellent resolution and color reproduction ability to ensure richer and more accurate details to be acquired and also guarantee the accuracy of intelligent analysis in a more effective way.

This product adopts large power LED infrared lamps, with infrared wave length 850nm, long night vision distance up to 200m, strong illumination. The IR lamps can turn on or off automatically based on environmental lighting conditions or can be manually adjusted. The IR illumination allows flexible adjustment so as to reduce IR lamp calorific value and extend its service life.

User-friendly GUI interface design allows users to perform dome PTZ control easily via network and to configure detailed camera parameters settings. At Web interface users can perform dome camera settings and operations by using a mouse which is more convenient than the traditional keyboard control. It also supports area zoom and image PTZ function.

VT231-B2 series dome cameras also feature general dome functions such as preset, pattern, autopan, autoscan, time tour and normal tour.
