

Infinova Awarded "2007 Enterpriser of Observing Contract and Valuing Credit" and "Guangdong Top-Ranking Security Enterprise"

The province of Guangdong is a thriving economic sector in China and with this success, driven by industry, comes the ever increasing need for sophisticated and reliable security. On the evening of June 25th 2008, the "Guangdong Security Exhibition Award Ceremony" was held by the government leaders from the "Guangdong Province Department of Civil Affairs" and "Department of Provincial Public Security" to honor public security related companies for their outstanding performance during 2007. The ceremony was co-hosted by "Commercial and Industrial Administrations of Guangdong Province" and "Guangdong Public Security & Protection Technology Association". Infinova was recognized with two awards that declare us to be the "Guangdong Top-Ranking Security Enterprise" and that we are a company that follows best in class business practices in delivering products on time and faithfully honoring our contracts with their "2007 Observing Contract and Valuing Credit" award.

The "Observing Contract and Valuing Credit" award is a prestigious honor and is only awarded to companies that show the highest ethical standards in their business practices. And also highlights our willingness to promote modern contract responsibility throughout the security industry within China.

Infinova has operated with integrity since it was founded. Infinova insists upon respecting their customers and fulfilling their contract obligations on time and in accordance within guidelines as set forth by the security industry in each of the many countries that we do business. This award also further solidifies the impact of Infinova in the security industry. Infinova would like to thank everyone for their continued support and will continue to follow the policy of "Observing Contract and Valuing Credit" as they continue to serve and support the security industry.
